GREENCREATIVE

NYX SERIES

SPECIFICATION FEATURES

- **Mechanical** - NYX Downlight is made from die cast aluminum, for maximizing passive cooling, ensuring long life lasting LED. This series is designed for new construction, remodel, and direct mount (retrofit) in the ceiling. Stainless steel spring action clips allow for both easy new construction and direct installation from 1/2" to 1-1/2" ceiling thicknesses and field accessibility below the ceiling for service or replacement. Galvanized steel plaster frame. Low profile bar hangers with non-pass through construction and leveling flanges, contain integral tee bar clip and preinstalled nail. Bar hangers are adjustable from 13-1/4" to 24-1/2" and can be installed in suspended T-Grid or wood joist ceilings. Optional field installable butterfly brackets with adjustable height are available for C-Channel or rod installation.
- **Electrical** - Proprietary potted driver for optimal heat protection ensure long life of electronics components. Field select from four or three lumen outputs using SelectDrive technology. The driver also features DualDim Technology, for maximum adaptability in any spaces whether it's commercial, residential or mixed. Rated for 120 to 277V, 50/60 Hz the driver is both 0-10V dimmable to 5% with low-end cut off and Forward and Reverse phase dimmable at 120V down to 10%. For 8" Large light engine, the 120V (DIM120V), 50/60 Hz driver is forward or reverse phase dimmable to 5%. The 120-277V (DIM010UNV), 50/60 Hz driver is 0-10V dimmable to 5% with a low end cutoff. Please consult dimmer compatibility for additional information. Sound rating <22db. Optional integrated EM driver available, and control options. Standard drivers DUALDIM and DIM010UNV also comes with a 12V auxiliary port that provides power for field installed sensors and control modules.
- **Optical** - Non conductive polycarbonate plated reflectors available in clear, matte white, white baffle or black baffle, are field interchangeable allowing for service or replacement to evolve with the space. Fully deadfront reflector and flange are available in full clear, white, and black finishes. High resistance and non yellowing polycarbonate lenses for optimal low glare light diffusion. Featuring SelectKelvin technology with field selectable CCTs 2700/3000/3500/4000/5000K. LED binning within 4 SDCM maximum. Offered in minimum 90 CRI. 80° optical wide beam angle diffuser with 1.2 SC, 60° medium fresnel optic with 1.0 SC or wall wash insert are available for optimal distribution.
- **Thermal** - Die cast fixture maximizes passive thermal management and achieves a L70 calculated lifetime of 100,000 hours, at 25°C according to TM-21-11 requirements. Ambient temperature rated from -40°F to 113°F (-40°C to 45°C). IC installation for IC rated parts limited to +35°C (95.0°F) ambient temperature. IC cover are also available.
- **Compliance and Warranty** - ETL Classified and Listed for wet location from the bottom once properly installed. Certified air-tight per ASTM 283-04. Complies with FCC 47CFR Part 15B consumer limits for EMI/RFI emissions at 120V. Suitable for use in clothes closets when installed in accordance with the NEC 410.16 spacing requirements. For IC rating information please refer to the IC rating table. Can be used for State of California Title 24 high efficacy LED compliance under JA8. 5 Year Warranty for complete fixture. Optional 10 Year Extended Warranty available, subject to same terms, conditions and installation requirements as standard 5 Year Warranty. BAA Compliant Option Available.

BENEFITS

- SelectDrive technology allows to select from 3 or 4 lumen outputs
- NYX provides the easiest retrofitting or new installation dimming compatibility with DualDim technology
- Install virtually anywhere with Wet Location, IC rated models and Air-tight ratings
- Multiple finishes and beam available to match your most demanding design requirement
- Long life time in high ambient temperature range installation
- Quick and easy installation for both new construction or direct mount

APPLICATIONS

- Commercial
- Retail
- Hospitality
- Education

- IC cover is mandatory for IC rating on 4" S round and S Square CC, WW and BB (dead front) reflectors, and 6" and 8" M light engine. All other 4", 6" S models are ICAT rated without frame cover. 8" L Light Engine, 4" M Square Light engine, and 6" M Square Light engine are not IC rated.
- Only available in Clear or Matte White finish. Not compatible with BB, WBW and BBW reflectors.
- 8" only available in Round Style
- Large Selectable light engine is only available for 8" and in dedicated dimming DIM010UNV or DIM120V.
- Dedicated dimming DIM010UNV or DIM120V is only available for 8" L light engine.
- Black Reflector and Flange are Made to Order, maybe subject to longer lead time. Please contact factory.
- 8" Large light engine DIM120V is Made to Order, maybe subject to longer lead time. Please contact factory.
- For Fixed Lumen output, the driver will be set at the right current for the lumen selected (F07=700lm, F10=1000lm, ..., F60=6000lm). F25 and above are not available for 4" Round, 4" Square, or 6" Square Style. F25 to F40, are exclusively available for 6" Round and 8" Round options. F50 (5000lm) and F60 (6000lm) are exclusively available for 8" and in DIM120V or DIM010UNV. Fixed lumen output light engine is Made To Order and subject to longer lead time, please contact factory.
- Factory setting at highest lumen output and 3500K for selectable lumen outputs and CCT options.
- This option needs to be selected for each fixture to use with NURO7/CM.

NUROAir by ILLUMUS

NUROAir Bluetooth Ceiling Mount Dual Mode Sensor is the optimal groupable controls lighting solution. With main features such as PIR Motion and Ultrasonic Sensing, Occupancy/Vacancy, Bi-Level Dimming and Daylight Harvesting - this flexibility makes the NUROAir Bluetooth Ceiling Mount Dual Mode Sensor ideal for tailoring lighting to specific space needs, optimizing both ambiance and efficiency. The NUROAir App, available for download on iOS and Google Play Store, offers a user-friendly interface for automatic or manual customization of your space. Through the app, users can configure sensor settings such as the Light Output, CCT, Hold Time, Standby Time/Level, High/Low End Trim, Background Light Level, Set Schedules, and Control Lighting Groups or Zones, all from a mobile or tablet device. Manual control is also available with a range of compatible wireless & wired wall switch options.
